

SEKHAR HARSHITHA

B.Tech CSE Student | Python Developer | AI-Integrated Backend Development

sekarharshitha555@gmail.com | +91 9445925564 | linkedin.com/in/sekhar-harshitha | Chennai, India

PROFESSIONAL SUMMARY

B.Tech Computer Science Engineering student at Dr. M.G.R. University with hands-on experience building backend systems and REST APIs in Python. National Hackathon winner with experience leading projects from ideation through live demonstration. Proficient in Python, FastAPI, Node.js, and PostgreSQL, with working experience integrating AI/ML models into production-style applications. Seeking a Software/IT Developer role to apply strong backend and API design fundamentals.

TECHNICAL SKILLS

- Languages: Python, C++, JavaScript, HTML5
- Backend & APIs: Node.js, Express, FastAPI, REST API design
- Databases: PostgreSQL, PostGIS
- Web: React, Next.js, CSS3, Responsive Design
- AI / ML: Machine Learning fundamentals, OpenAI GPT-3 integration
- Tools & Concepts: Git, GitHub, VS Code, Data Structures & Algorithms, OOP

TECHNICAL PROJECTS

PuddleX — AI-Powered Flood Risk Prediction & Smart Navigation System | React.js | FastAPI | PostgreSQL/PostGIS | Python | GeoPandas | XGBoost | Leaflet

- Built an AI-powered geospatial platform predicting road-level flood risk using rainfall, drainage, water body, and historical flood datasets.
- Developed an ML pipeline for GIS feature engineering and real-time flood risk scoring, with a Leaflet/OpenStreetMap interface for safe-route recommendations.
- Implemented a FastAPI + PostgreSQL/PostGIS backend serving spatial predictions via REST APIs; piloted in Arumbakkam, Chennai with a city-scale architecture.

CoolCity AI — Urban Heat Intelligence Platform | Next.js | FastAPI | Mapbox | Python | PWA

- Built an AI-powered digital twin predicting urban heat hotspots up to 60 minutes in advance, with an interactive risk map and simulated cooling interventions.
- Developed as an offline-capable PWA aligned with SDG 11, 13, and 3, targeting municipal and smart-city adoption.

FarmLink — Farmer-to-Market Connectivity Platform | Python | Web Development | Social Impact

- Built a scalable web platform connecting 500+ farmers directly with buyers, removing intermediaries and improving revenue margins.

Shravi Boutique — Real-Time Business Website | HTML5 | CSS3 | JavaScript | Responsive Design

- Designed and deployed a responsive e-commerce site, cutting customer query volume ~40% through a self-service product showcase.

HACKATHONS & ACHIEVEMENTS

- Winner — Domain I (Open Challenge), National Hackathon 360°-2.0 (ACM-organized).
- Top Finalist — StartupTN Naturals Beauty Tech Hackathon.
- Winner — Debate & Public Speaking Competition.

CERTIFICATES

Voice Assistant with OpenAI GPT-3 & IBM Watson (IBM) · Problem Solving, Intermediate (HackerRank) · AI for Beginners (HP LIFE) · Java Basics (Udemy) · Malnutrition Detection Project Demo (ACM, National Recognition)

EDUCATION

B.Tech in Computer Science Engineering

2023 – 2027

Dr. M.G.R. University, Chennai | GPA: 8.54 / 10.0

Senior Secondary (CBSE)

2011 – 2023

Kendriya Vidyalaya Gill Nagar, Chennai | Class XII: 75.4% | Class X: 92%

EXTRACURRICULARS & LEADERSHIP

ACM Student Member · Native in Tamil and Telugu, working proficiency in English and intermediate Hindi · Painting, dancing, and journaling
